TOLEDO RIOTERS AGAIN FIGHT TROOPS

IN OUR VALLEY

THE BEST COTTON CROP IN years, barring acts of nature, is expected in the Matamoros area this season.

Predictions are now that approximately 50,000 bales will be ginned—

Which is the same figure as set for the entire U. S. side of the Lower Rio Grande Valley.

Bill Aldrich of Brownsville went down the line as far as San Fernando the other day.

Comes back to report the nicest looking cotton he has seen anywhere.

Says the grass is green and the rivers full of water.

At San Fernando they are using a ferry to cross the Conchos, with the water belly deep to a horse.

CONDITION OF THE VICTORIA road is not so good, Aldrich reports.

Washouts which are almost gulfies are to be found in several places as result of the September storm.

Little or no attempt has been made to repair the damage.

Brownsville regrets the lack of access to Victoria, for Brownsville folk like to visit the capital city of the State of Tamaulipas.

Sincerely do we all hope that the contract for the Kenedy county road will be let in the near future, for when that contract is let, Matamoros and Brownsville will be in position to show Victoria and the rest of the state how greatly all will benefit by the Matamoros-Victoria highway.

DOC OSBORNE, SPORT COLUMNIST extraordinary, horns into this perch argument—

Apparently under the impression that it is a public quarrel.

Not only that, but he accuses us of being no fisherman.

To which we would say—

That we are a "retired" fisherman.

That we were catching blackfish and cunners and bluefish and tinker mackerel off the New England coast.

While Doc was still getting sore toes kicking the slats of his cradle.

JUST ABOUT ALL OVER BUT the shouting is it for the sweet girl and the manly boy graduates of the Valley.

Out they go into the world of misery and woe, sunshine and happiness—

To sink or swim.

Somehow or other we feel that most of them are going to swim, and swim well.

Our young folk of today may be this and may be that—

But put it down in your little book that they are a self reliant and confident group.

And that their attitude is well justified by their works.

It may be trite to wish them well, but we do give them that wish.

Sure that their past scholastic accomplishments are but the fore-runners—

Of the building of characteristic Americans, useful citizens.

More Blood Spilled in 'Get Dillinger' Hunt

TWO OFFICERS FOUND SLAIN IN THEIR CAR

Blame Is Pinned On Dillinger But Cops Not Certain

EAST CHICAGO, Ind., May 25.—(AP)—Two more police officers were dead Friday in the bloody game of "get Dillinger."

In this city where Policeman William P. O'Malley was slain January 4 by a man definitely identified as John Dillinger, two officers, Martin O'Brien, 44, and Lloyd Mulvihill, 28, were machine-gunned to death late Thursday night.

No Clue to Identity

There was no clue to the identity of the killers. Dillinger, fugitive from the Crown Point jail where he was held for trial for the murder of O'Malley, was suspected, but it was only a suspicion. The only two men who might have been able to say positively as to the identity of the killers were the policemen, and they died instantly.

Policemen Mulvihill and O'Brien, veteran officers who knew Dillinger by sight, had been assigned to guard a road along which it was believed Dillinger might travel Thursday night. The road patrol was established following word from Indianapolis that a man believed to be Dillinger had been there Thursday.

Travel at High Speed

An automobile believed to have carried four or five men approached at high speed. The two officers, traveling in a police squad car, apparently decided to halt the car and investigate.

Just what happened is not clear. (Continued on Page Six)

CHICAGO BANK ROBBERS SHOT BY EMPLOYEES

Raid Fails As Guards Turn Machine Gun Loose On Pair

SOUTH HOLLAND, Ill., May 25.—(AP)—Two bank robbers were shot to death and a third member of the band of six wounded probably fatally Friday when a veteran bank guard, ready to avenge his son's murder by bandits three months ago, met them with a rifle in the South Holland Trust and Savings bank.

Bank employees fought it out with the invaders in the bank and killed one outright.

Near Killing Scene

The proximity of South Holland, a hamlet south of Chicago near the Indiana line, to the scene of the killing of two East Chicago policemen Thursday night gave rise to a report the bandits might have been the assailants of the Indiana officers.

Four men and two women were in the bandit gang.

While the two women stayed at the wheel of the car, the quartet of robbers marched into the bank at 10 o'clock when the moment the time locks released the vault.

Machine Gun Used

Guards had been posted in the balcony for the bank, alert for just such a raid. A machine gun was turned loose on the robbers below and two of them fell.

The other two raced for the door and scrambled into their car, speeding away while vigilantes already gathering around the bank riddled the rear of the automobile with bullets. The fugitives sped northward toward Chicago.

In sustaining the motion for an instructed verdict, the court in effect held that Johnson's death did not result from negligence on the part of the defendant.

This was the second time the case had been tried, first resulting in a mistrial.

WASHINGTON By George Durno

DISCRETION—The sudden deference with which our upper house is treating the Louisiana kingfish is part of the session's entrance upon its final stretches.

Only a few weeks back it appeared his colleagues were ganging up to squelch Huey Long from several important angles.

Today the irrepressible Bible expert is just about having his own way again. Leaders have decided discretion is the better part of valor.

They fear one-man filibusters

and at those annoying parliamentary tactics an irate senator has at his command to get the parade out of step. From past experience their fears are justified.

SHIFT—Deprived of his patronage rights Long was waging a dogged fight against two Louisiana appointments the administration made without consulting him. One was Rene A. Viosca to be U. S. attorney at New Orleans. The other was Daniel D. Moore to be collector of internal revenue for the state.

Crime Never Pays—End of Bonnie and Clyde

Clyde Barrow went to his death grabbing for a sawed-off shotgun, but before he could bring his weapon into play effectively he went down with approximately 60 bullet wounds in his body. This picture shows him being taken from the death car.

Here is the car in which Clyde and Bonnie rode to their rendezvous with death. More than 70 bullet holes are shown in this picture, and it was through this window the six officers poured their stream of lead into the desperadoes.

NOISY CROWD VIEWS BODIES

Clyde Will Be Buried At Nightfall; Bonnie's Rites Sunday

DALLAS, May 25.—(AP)—The bullet-riddled bodies of Clyde Barrow and Bonnie Parker lay in the noisy atmosphere created by thousands of mortally excited spectators Friday when families of the outlaw lovers planned private funerals to end the spectacle.

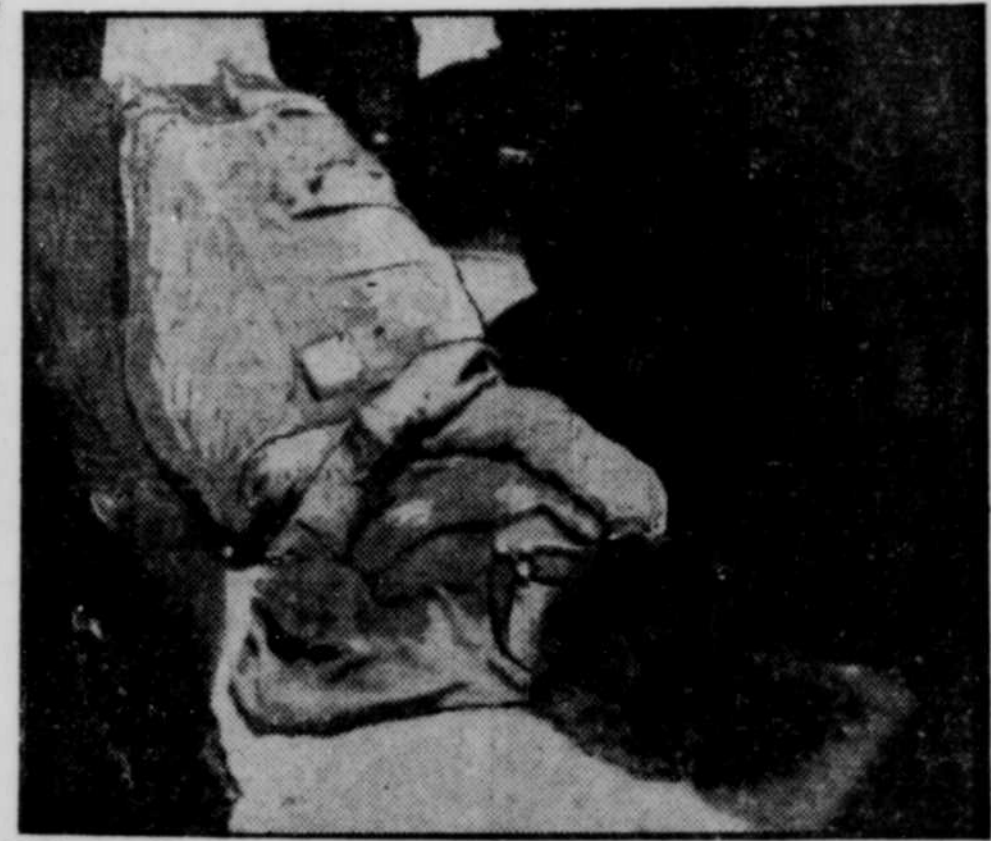

The Southwest's No. 1 gunman will be buried at sunset in the West Dallas cemetery, close to the grave of his brother, Marvin (Buck) Barrow, after what the family plans as a private service.

The body of his 23-year-old, red-headed consort will be taken from a funeral home Friday night and will be placed in the home of her mother, Mrs. Emma Parker. Burial probably will be held Sunday at the Fishtrap cemetery, less than a mile from the spot where her marauding companion of two years will be laid to rest.

Officials of the two undertaking establishments where the bodies had lain for 24 hours estimated that 50,000 persons will have viewed the bullet-torn bodies before Thursday night tramped the lawns and shrubs and ruined the carpets of the parlors before they dispersed about midnight.

Clyde, attired in an expensive suit and stiff collar, lay in a wood casket, battleship gray with

Living by the gun, Bonnie went to a violent death by the same route with her hand-picked partner in murder and banditry. Like Clyde, she grabbed for a gun; like Clyde, she went down with half a hundred bullet wounds. Above she is being taken from the car in which she took her last ride.

Body Missing Man Is Found In Tank

The 50-year-old victim's pockets had been turned out by his slayers, evidently in a search for valuables.

MACHINE GUNS DISTRIBUTED IN MOB, SAID

1,000 Soldiers With Armored Car To Guard Factory

TOLEDO, O., May 25.—(AP)—A crowd of 1,500 strikers and sympathizers, bringing more bricks and assorted missiles, gathered at the plant of the Electric Auto-Lite Co. here at noon Friday and reopened the bombardment of the building and troops which already had cost the lives of two men.

With rifle fire and tear gas, Ohio National Guardsmen had gained control Friday of a riot-scattered factory district where two men have met death and 150 have been injured in strike disorders.

Several Wounded

The militiamen, 740 strong, repelled brick-tossing strike sympathizers in nine hours of desperate guerrilla warfare Thursday at the plant into the jeering, taunting rioters of the Electric Auto-Lite Co.

Hard pressed, the soldiers fired Thursday afternoon, killing Frank Hubay, 27, and Steve Cygan, 20, and wounding several.

Stopped for a time, the rioters strengthened their forces and returned to battle Thursday night. Two men were shot and three others were injured. The crowd numbered 6,000 at the height of the riots.

53 Are Arrested

Prospects for peace negotiations were complicated by new developments toward a general strike in Toledo.

Fifty-three persons were arrested by the militia for civil authorities and charged with rioting.

A three-day period approximately midnight in the area of machine gun sand bayonets just five blocks northeast of the city hall.

Scores of injured—including many women—were included in the casualties. In previous rioting during a three-day period approximately 100 suffered minor injuries from clubs, stones and tear gas.

Four more companies of guardsmen, an armored car and trucks loaded with gas bombs were ordered into Toledo to tighten the hold of the military authorities, bringing in nearly 1,000 the forces of the militia.

Near Heart of City

The rifle fire and the popping of gas bombs, the clatter of rocks and other missiles, the screech of ambulance sirens, and the shouts and jeers of the rioters were raised Thursday night only eight blocks from the heart of downtown Toledo. Theaters reported they could smell the gas.

That some of the rioters were armed with guns became apparent in the early fighting. At field headquarters in the damaged factory, outposts reported snipers were firing into the plant.

At central labor union headquarters there were unconfirmed reports that rioters would be armed with machine guns brought in from Detroit.
